**Carisk Partners' Chief Technology Officer Allen Spokane Elected President of
2019-2020 Executive Committee for Society for Information Management - New Jersey**

MIAMI – November 14, 2019 – Carisk Partners (Carisk), a specialty risk transfer and care coordination company, is pleased to announce that Allen Spokane, chief technology officer, Carisk, has been elected as president of the 2019-2020 Executive Committee for the New Jersey chapter of the Society for Information Management's (SIM), a professional association of senior IT executives, prominent academicians, selected consultants and other IT thought leaders.

"We congratulate Allen and are proud of this distinguished position he will be accepting among an esteemed roster of industry influencers and IT trailblazers," says Joseph Berardo, Jr., CEO, Carisk. "With over 25 years of senior IT management experience and as a valued member of our executive team, Allen has spearheaded technology innovations for Carisk. SIM NJ is fortunate to tap his expertise and vast knowledge base."

SIM NJ is one of over 40 chapters and 4000+ members that play a vital role in the success of SIM by extending its vision and mission into IT communities across the US. Through workshops, presentations, conferences, meetings and social outings, SIM NJ helps members stay informed on key industry issues while enabling them to establish valuable local, regional and even national contacts.

"I'm very honored to serve as president of SIM's New Jersey executive committee and look forward to playing a key role in bringing together industry leaders who share and enhance their rich intellectual capital for the benefit of SIM's members and their organizations," says Spokane.

About Carisk Partners

Carisk is a specialty risk transfer, care coordination company serving insurers, government entities, self-insured plan sponsors and other managed care organizations. With a foundation in behavioral health, Carisk's combined end-to-end solutions include risk-transfer and care coordination of delayed recovery and complex, catastrophic cases. Carisk guarantees to improve outcomes and reduce long-term cost of care for its clients by leveraging its biopsychosocial methods, extensive networks of quality providers and proprietary technologies modeled for the early identification and intervention of high-risk patients. Carisk is the first and only Managed Behavioral Healthcare Organization with dual accreditations from both the National Committee for Quality Assurance (NCQA) and the Accreditation Association for Ambulatory Healthcare, Inc. (AAAH). Visit www.cariskpartners.com to learn more.
